Volume 3, Number 1, 1981

1 Review: The deoxyuridine suppression test: a review of its clinical and research applications
S. N. Wickramasinghe

19 Response of graft versus host disease to high doses of methyl prednisolone
J. Kendra, A. J. Barrett, C. Lucas, R. Joshi, V. Joss, M. Desai, O. Halil, T. R. Rogers, J. R. Hobbs and K. Hugh-Jones

27 Hereditary haemolytic anaemia due to red cell pyrimidine 5′-nucleotidase deficiency in two Irish families with a note on the benefit of splenectomy
J. N. McMahon, J.E. Lieberman, E.C. Gordon-Smith and E. L. Egan

35 Macrocytosis in alcohol-related liver disease: its value for screening
Marsha Y. Morgan, M. E. Camilo, W. Luck, Sheila Sherlock and A. V. Hoffbrand

45 Male–female differences in the cytotoxic activity of human monocytes *in vitro*
Marion G. Koopman, A. Fleer, D. B. v.d. Schaaf, F.W. v.d. Meulen, A. E. G. Kr. von dem Borne and C. P. Engelfriet

51 Ultrastructure of red cells containing haemoglobin H inclusions induced by redox dyes
S. N. Wickramasinghe, Madeleine Hughes, D. R. Higgs and D. J. Weatherall

61 A simple method for detecting complement-fixation by autologous platelets in autoimmune thrombocytopenic purpura
R. M. Sandler, D. Voak and J. Darnborough

71 Tentative protocol for the evaluation of coagulometers, based on one-stage prothrombin time
N. K. Shinton, A. L. Bloom, B. T. Colvin, P. T. Flute, F. E. Preston and D. A. Kennedy

77 Case report: Heterophile antibody and histiocytic medullary reticulosis
J. Davson, N. P. Mallick, R. Ll. Lyon and C. G. Geary

85 Technical note: A rapid whole blood technique for assessment of neutrophil phagocytosis and killing
H. A. Al-Hadithy, I. E. Addison and A. H. Goldstone

98 Announcements

Volume 3, Number 2, 1981

99 Review: The value of radioisotopic assays for 'serum B_{12}' in the diagnosis of cobalamin deficiency disorders
J. C. Linnell

107 The effect of bleeding patterns on the response of haemophilic haemarthroses to different doses of factor VIII
A. Aronstam, M. Wassef, Z. Hamad and D. S. McLellan

113 Problems arising from the use of the HLA system in paternity testing
E. G. Reisner and J. M. MacQueen

121 Homozygous $^{G}\gamma\delta\beta$ thalassaemia
J. H. Matthews, D. Rowlands, J. K. Wood and W. G. Wood

129 IgEλ paraproteinaemia associated with a pleomorphic lymphoproliferative disorder
D. L. Barnard, C. P. Worman, I. Boldersen, J. L. Smith, L. M. Swinburne, G. Masters, N. B. I. Ikoku, B. J. Stonowski and J. L. Cawley

137 Anti-M^{v} causing haemolytic disease of the newborn; and serological considerations of the M^{v} red cell determinant
T. J. Walsh, C. M. Giles and J. Poole

143 A system for proficiency testing in immunohaematology
S. C. Ezer, K. L. Burnie, K. C. Carstairs, D. C. H. Ley, J. A. McBride, P. H. Pinkerton and D. E. Wood

155 Proficiency testing in immunohaematology in Ontario, Canada, 1977–1979
P. H. Pinkerton, D. E. Wood, K. L. Burnie, K. C. Carstairs, B. E. E. Croucher, S. C. Ezer, D. C. H. Ley, J. A. McBride, M. C. Quantz and E. D. Zuber

165 Comparison of Channelyser and Model S Plus determined platelet size measurements
R. M. Rowan, C. Fraser and J. H. Gray

169 Tn-specific lectins from Lamium
G. W. G. Bird and June Wingham

173 Case report: Spontaneous remission following bone marrow necrosis in chronic lymphocytic leukaemia
R. G. Hughes, A. Islam, S. M. Lewis and D. Catovsky

185 Correspondence

193 Book reviews

Volume 3, Number 3, 1981

195 Review: The use of barcodes to facilitate computerization in blood transfusion
H. H. Gunson

205 Increased eosinophil colony formation in agar by haemopoietic cells from patients with the hypereosinophilic syndrome
A. Hellmann, J. M. Goldman and C. J. F. Spry

215 Automated platelet counting—a re-evaluation of the sedimentation method
S. M. Lewis, J. V. Skelley and S. Cousins

223 Platelet hyperaggregability during alcohol withdrawal
R. A. Hutton, R. Fink, D. T. Wilson and D. H. Marjot

231 Severe megaloblastic bone marrow change associated with unsuspected mild vitamin B_{12} deficiency
J. A. L. Amess, J. F. Burman, M. F. Murphy, A. M. Paxton and D. L. Mollin

239 Diagnostic value of the Hemalog D-90 in classifying acute childhood leukaemias
Annette O. Poon, P. D. McClure, J. B. Atkinson and Grace Ing

245 Continuous long-term culture of human bone marrow
C. G. Potter, A. C. Rowell and D. J. Weatherall

257 Bioluminescent assay of adenine nucleotides: rapid analysis of ATP and ADP in red cells and platelets using the LKB luminometer
G. P. Summerfield, J. P. Keenan, N. J. Brodie and A. J. Bellingham

273 Case report. Refractory anaemia in the glucagonoma syndrome
M. K. Jones, A. Jacobs, A. May and K. Barnes

279 Book reviews

Volume 3, Number 4, 1982

283 Review: Clinical and laboratory implications of present ESR methodology
B. S. Bull

299 Efficiency of haematological screening tests for detecting disease
M. W. Kenny, D. J. Worthington, J. Stuart, A. J. Davies, M. Farr, P. G. Davey and M. A. Chughtai

307 Immunological dysfunction in paroxysmal nocturnal haemoglobinuria
E. Vellenga, N. H. Mulder and T. H. The

317 Sciatica in CGL: a sign of transformation
G. E. Holdstock and Morag Chisholm

323 Vitamin B_{12} quality control trials
D. W. Dawson, D. I. Fish, I. D. O. Frew, B. Orton and T. Roome

331 Effect of thromboplastin and instrumentation on the prothrombin time test
B. L. Evatt, Donna Brogan, D. Triplett, J. Koepke and G. Waters

343 Automated screening of antenatal samples using a low ionic strength polybrene system
S. B. Powell, P. Howell and P. H. Renton

351 Four further examples of anti-In^b detected during pregnancy
G. H. Longster, D. I. North and E. A. E. Robinson

357 Case report: Strong T-transformation associated with a severe haemolytic reaction in a young infant transfused with packed red cells
G. W. Mullard, I. H. Thompson, D. Lee and W. G. Owen

365 Case report: Is intestinal lymphangiectasia a pre-leukaemic condition?
A. J. Kay and J. S. Lilleyman

369 The theory of reference values
International Committee for Standardization in Haematology (ICSH)
